FOR CONGRESS,

JAMES A. MCKENZIE.

OF CHRISTIAN COUNTY.

Indiana.

The result in Indiana was a surprise

to the Democrats, and perhaps to the

Republicans also. That it is not a de-

fect in the true meaning of the term,

there is abundant evidence. The party

in Indiana regard the situation as hope-

ful; a stirring, bold and patriotic ad-

dress has been issued by the Democratic

State Executive Committee, and the

party throughout the State are respond-

ing in a way that makes Indiana any-

thing but sure for Garfield in the

November contest.

That Landers was the wrong man for

the head of the ticket is now manifest

to all. In nearly the whole State he

ran behind his ticket. Everywhere he

was a drawback to it, and was a dead

load to carry.

The October skirmish is over and

now the real fight between Hancock

and Garfield is to take place. In the

State of Indiana, to which both parties

look with eager, longing eyes, the hero

of Gettysburg is immensely popular.

His record is attractive, his whole life

presents a record which they can but

admire and appreciate. In his hands

the people know that the country will

be safe, and the desire to honor the

hero-statesman is so general that we

may confidently look for a largely in-

creased vote for him over the Landers'

vote in October. The Democrats of

Indiana are not idle; like men who know

their duty and who will dare to do their

duty they are rallying from one end of

the State to the other, and fighting

shoulder to shoulder in a common fight

for right and victory, all dissensions

laid aside, we will look for better re-

sults than the October election would

seem to indicate.

The thieves' coons are all happy.

Now is the time for Democrats to

show their nerve.

REMEMBER, in voting for Garfield

you vote for a perjurer.

REMEMBER, in voting for Garfield

you vote for a \$329 thief.

The Republicans admit that Indiana

will be carried by Hancock.

The Greenbackers didn't get a smell

in either Ohio or Indiana.

HANCOCK will carry Indiana by

6,000. Paste this in your hat.

REMEMBER, a vote for Garfield is a

nail in the coffin of America's liberty.

Just mention Maine to a Republican

and he quits sloping over immediately.

The poor State of Indiana had a

severe attack of black vomit last week.

REMEMBER, 40,000 more votes were

cast in Indiana than there are or was

voters.

THE niggers that left this place for

Indiana, are returning. All show up

new two-dollar bills.

IN Fort Wayne, Allen county, Ind.,

800 Germans refused to vote for Landers,

ON the 10th inst. the Oregon Legisla-

ture passed an amendment to their

constitution which gives women the right

to vote.

HON. WADE HAMPTON tells John

Sherman lies. Johnny, you fool

with the wrong man when you tackle

Wade Hampton.

LATEST returns from West Virginia

gives the State to the Democrats by

8,000 or 10,000. They elected their

Governor and the whole State ticket.

222 students. Where's Mosely?

South Carrollton Correspondent in Echo.

It matters not to us where he is. His

loss has been replaced by over a dozen

new pupils.

We understand that Hon. John W.

Feland was nominated by a colored

preacher at the Greenville Convention

last Friday, which was carried by ac-

clamation.

THE Democratic State Central Com-

mittee, of Ohio, is out with a stirring

address to the Democrats of that State,

calling on them to contest every inch

of ground in November.

THE Ute Indians are again raising

trouble. Fears are entertained of a

general uprising of that tribe and mas-

sacre of the whites in their neighbor-

hood.

It is reported that the medical stu-

dents got one of Ohio county's rep-

resentative negroes last week while in

Indiana. He's undergoing dissection now,

boys, and more are wanted.

Ohio and Indiana have both gone

Republican. The former about 6,000

and the latter about 20,000. In Indiana

the Democrats lose one Congressman,

which gives the Republicans eight to

the Democrats' five.

THE Princeton Courier comes to us

this week with a new and beauti-

ful. It also has a new head and is

printed on a new power press. Col.

Allen does not intend to be behind his

brother contemporary.

SOME of our contemporaries have it

that there is "one colored man on the

radical electoral ticket" of this State.

There are three—Allensworth, Se-

abee and Gentry.—Breckinridge News.

Our Republican friends will please

take notice.

THE New York Tribune figures up

that Hancock will carry, its city and

Brooklyn by 82,000 majority. Hays

received 40,000 majority in the rest of

the State. Even if the Republicans

hold their own, which is an impossi-

bility, in November, the Empire State

may be safely set down for Hancock

by over 40,000 majority.—Breckinridge

News.

At the Republican Congressional

Convention, held in Greenville last Fri-

day, Hon. John W. Feland, of Hop-

kinsville, was nominated as the Repu-

blican standard-bearer. Mr. Feland is

a representative man of his party, and

no doubt will carry the strength of his

party.

THE election of Hon. J. A. McKenzie

for Congress is no longer a question,

as the Republicans have trotted out their

candidate, which only leaves Mr. Cook

with a handful of Greenbackers to sup-

port him. We have never doubted the

election of Mr. McKenzie in the event

that the Republicans did not have a

candidate, but the race will now hardly

be close enough to make it interesting.

THE Danville Tribune says the party

that has the most backbone will elect

the President. As a general thing the

party which has the greatest number of

votes is the one which elects and seats

him in his office. There was a notable

exception to the rule, however, four years

ago. It will not occur again. The Dem-

ocrats have the votes, will elect their man

and see that he is not cheated out of his

office. There must be no want of back-

bone no backdown this time.—Bor-

ing Green Gazette.

All the Republican organs declare

that "the country is safe" since the

elections of Tuesday. They also declare

that "the solid South is crushed." In

about the days they will begin to de-

clare again that "there is a state of war

in the South," "business is in imminent

peril," "we are on the verge of Mexican-

ization," "the rebel brigades are about

to seize the Government," "every fac-

tory in the country will be shut up if

Hancock is elected." By the middle of

next week these greedy flesh-pot ten-

dents will try to get up a business panic,

and they will keep up their lying racket

until November 2.

We have received from John R. Pro-

ctor a pamphlet descriptive of Kentucky,

printed in German and designed for

distribution in Germany, with a view

to promote immigration. Any of our

German citizens can procure copies of

these pamphlets free of charge on ap-

plication to John R. Proctor, Frank-

fort, Ky. The postage per copy to send

to their friends in Germany is only

three cents. We trust our German

friends will each and every one preserve

copies and send to friends in the old

country.

Three Cheers for Our Next King.

Three cheers for Ulysses S. Grant,

our next king.

This was the cry distinctly heard on

the approach of the Republican pro-

cession last Monday night.

How many throngs will repeat this

cry in a New York Republican pro-

cession four years hence?

This is a question of the highest im-

portance. It is a question over the

answer to which thoughtful men may

well ponder.

Free Trade.

Garfield is a member of the Cobden

Free Trade Club, of England, and is

pledged to free trade. The president of

that club in a recent speech said:

"Free trade is looking up. Gen. Gar-

field, a candidate for President of the

United States, is pledged in the interest

of free trade. We must forward our

interest by forwarding him."

Says Garfield in a speech July 10,

1898: "Nothing can be said against

free trade." Again, on April 1, 1870:

"Modern scholarship is on the side of

free trade." Garfield in Congress voted

to reduce the tariff on iron, wood and

steel.

The Indiana Election.

Returns from all the counties in the

State except Ripley give Porter 384 plu-

rality. Ripley county gave a liberal

majority in 1876 of 225. Full returns

from the Fifth Congressional district

give C. C. Matson, Democrat, 881 major-

ity. This leaves the Congressional de-

legation eight Republicans and five Dem-

ocrats.—Courier-Journal.

Heilman's "Famous Victory."

Facts developed here since election

day show that the Republicans have

used a large amount of money in carry-

ing this county. The whole district is

flooded with crisp, new two-dollar green

backs from "the mint." They were used

mostly in paying men to stay away from

the polls. The Courier will publish sev-

eral affidavits to-morrow morning from

well-known Democratic ward-workers

who were offered from \$10 to \$100 each

to stay away from the polls on election

day.—Evansville special to Courier-Journal, Oct. 15.

The Right Spirit.

From the letter of the Indiana cor-

respondent in the Courier-Journal yes-

terday we clip the following, which

shows the right spirit actuates the In-

diana Democrats:

"The Democrats are not crying over

the broken pitcher. The election of

Tuesday is nothing among the things

that were. The remedy is to carry the

State for Hancock in November. With

that end in view every Democrat should

go to work and keep at work until the

close of the polls. The election is only

two weeks from to-morrow. There is

no time to be lost. Indiana can be re-

deemed and will be redeemed in No-

vember if every true Democrat will put

his shoulder to the wheel and do his

duty. O. O. S.

Thompson on the Stamp.

Judge J. C. Thompson, of Greenville,

assistant Democratic candidate for elec-

tor for this district, spoke to quite a

large audience at the court house Thurs-

day evening. Several ladies were pres-

ent and the greatest enthusiasm pre-

vailed. He spoke nearly an hour and

a half and held the close attention of

his listeners during his entire speech.

Judge Thompson is a forcible, eloquent

speaker and a great many telling com-

ments, which were greeted by frequent

outbursts of applause. It was one of the

best speeches we have heard during the

campaign. He said there were really

not two forms of government, the

Democratic or people's government, and

the monarchial form or centralized

one-man power. Thomas Jefferson was

the exponent of the former and

Alexander Hamilton the advocate of

the latter. He showed that the Demo-

cratic party had ever been committed

to the Jeffersonian theory of govern-

ment, while the Republican party ad-

dorsed the principles of Hamilton.

Quoted from a speech of Garfield's, in

which he said the principles of Jefferson

were wanting in this country and

Hamilton's becoming more popular, and

he was glad of it. The speaker then

discussed State's rights to some extent,

reviewed the record of Garfield from a

Republican standpoint, and paid a glow-

ing tribute to the honesty, the bravery

and the patriotism of Gen. Hancock,

and predicted his election by an over-

whelming majority.—Madisonville

Times.

Miss Lilla Thomson, who has been visiting the family of John P. Barrett for about two weeks past, returned to her home in Madisonville to-day. By her modest and unassuming manner, Miss Lilla won many friends here who will regret her departure.

Mr. S. F. Howey, late of Vine Grove, has moved to Hartford, Ohio county, to take a position in a store. He is one of our old stand-bys, both as agent and correspondent, and we regret his loss. We recommend him to the people among whom he has located. They will find him a gentleman of worth and integrity. —Elizabethtown News.

—Very low round trip tickets to the Louisville Industrial Exposition which opens September 7th and closes October 23d, presenting attractions never before witnessed. That all may be able to visit Louisville during the gala season, the Louisville & Nashville Railroad will sell round trip tickets from all stations to Louisville, at four cents per mile. Please note, that these tickets will be sold every day in the week, and will not be good to return unless stamped by the Agent of the Company in Louisville, and used for return passage within ten days from the date of sale.
C. P. ARMOUR, Gen. Pass. Agent.

—One reason why Anderson's Bazaar has built up such a big trade in Ohio and adjoining counties is, because of their securing the exclusive sale of certain lines of goods of superior quality and great reputation. For instance, they secured, soon after they opened here, the exclusive use of Stevens' women's and children's shoes, which are undoubtedly the best wearing goods in the market; then followed a contract for the handling of Walker's boots and shoes, which have such a great reputation in this country; they have recently negotiated with Mr. Jas. Cate, of Runy, Ky., for the sale of the celebrated Cate's jeans' upon terms which enable them to sell these goods at the same price that common goods are sold, and there are other lines of noted goods — for which they have the exclusive sale — to which we might refer had we the time and space. We wish to add, however, that though they are always quick to secure the exclusive sale of any popular brand of goods that may appear on the market at any time, yet in no single instance have their profits on such goods been larger than on goods that are thrown on the market free to all merchants, and they are to-day selling Walker's women's shoes at a shorter profit than on any goods they handle. Thus it is that they have built up a trade which will this month show an increase over last October's sales of over one hundred per cent.

After the ceremony the happy couple, in company with those present, repaired to the residence of the groom's father, where a bountiful reception supper awaited them.

—G. W. McGraw, dentist, who announced last week that he would be at Beaver Dam, was detained at Hartford longer than he expected. He left Saturday evening for Beaver Dam, where he will be found at the Barnard house, ready to do any work in the dentistry line. Special attention given to the repairing and refitting of artificial plates.

—"Behind the cloud the sun's light shining" has ever been a consoling thought to the desponding heart. The cloud of despondency bursts at an unexpected hour and lets in a ray of sunshine to gladden with its brightness. Such were our feelings last Wednesday when a fairy-like rap was heard at our sanctum door. We welcomed the visitor and conducted them through our office and explained the vexations and perplexities of newspaper life, and assured them that their visit was appreciated by us.

—Spruce up, young man, spruce up! The season of evening calls is at hand, and the ladies will scrutinize you from head to foot. Woe to the luckless chap who neglects his toilet on such an occasion. Perhaps J. Winter & Co., the famous tailors and clothiers, corner of Third and Market streets, Louisville, Ky., can be of service to you in this dilemma with their stylish stock of overcoats and suits, or take your measure for a suit selected from goods in their Merchant Tailor Department, which takes in the entire second floor of their extensive building. In either case, satisfaction is guaranteed. Be sure to follow our advice and go there.

—Come and see our mammoth crawfish.

—Remember the Hartford Water Mills will deliver flour, meal, bran, &c., to any part of town at retail prices.

—Mr. Press Ross has purchased the lot of Mr. John C. Thomas, next door to W. H. Williams & Son, and is erecting a butcher shop thereon.

—Bally, Republicans, rally, and gather at the court house Wednesday, Oct. 27th, and see how Republicans have grown since the election in Indiana.

—Why will you pay \$3.00 to \$3.50 per hundred for flour when you can get a better article at the Hartford Water Mills at \$2.50 per hundred, and have it delivered at your houses in town.

—We learn from Mr. James T. Taylor that quite a revival of religion is in progress at Bell's Run church, under the ministry of Rev. J. M. Peay, assisted by Rev. J. P. Ellis. Forty-five persons have joined the church, nine of whom are heads of families. Great interest is manifested among the people in that vicinity.

—Married.—At the residence of the bride, Thursday, Oct. 14th, 1880, by Rev. J. A. Humphrey, Mr. Wm. Milligan and Mrs. Amanda A. Williams.

The party, accompanied by several ladies and gentlemen, left immediately after the ceremony for the home of the groom in Muhlenberg county.

—Robert Payton and John W. Cummings were in town last week. They brought the horse belonging to Dr. Pendleton that Payton had bought of "Dick" Fitzhugh. Fitzhugh claims to have bought the horse from a man named Bennett. Mr. Payton was perfectly willing to give up the horse, Fitzhugh is in jail here awaiting trial for other offenses.

—We have been informed by Mr. Z. Wayne Griffin, treasurer, that the Trustees of Hartford College have paid the interest on the school bonds. They have also paid and taken in ten per cent. of the bonds, which is \$500.00. This will probably be an item of news to some of our citizens who have been under the impression that the interest was due and no money on hand to pay it.

—We regret to chronicle the death of Mr. John L. Talbott, which occurred on the 31st day of this month at his home near Big Springs, in Breckenridge county. Mr. Talbott was a successful farmer and stock raiser, and his loss will be felt in the vicinity where he lived, as well as regretted by his friends and acquaintances everywhere. He was a brother of Mrs. W. B. Hayward, of this county, and for many years a patron of this paper.

—Republican Rally.

There will be a grand rally of Republicans at the court house in Hartford on Wednesday, Oct. 27, 1880.

All the members of the district committees are especially requested to meet at the court house at 11 o'clock a. m. Wm. C. Morton, Chairman.

Died.

Departed this life Sept. 29, 1880, L. S. Craig, in the 32nd year of his age. Death stalks through our land, plucking now and then a cluster from some branch and leaving homes desolate. In this instance he has seized the main prop of two families; he has robbed a wife of her devoted husband; a child of its father in the early budding of its life; a sister of her last brother, and aged parents of their last son. To say that the lot of our friend in this life was more burdensome than that of most men of his age would be saying the least that the circumstances would warrant. How well he performed the duties incumbent upon him let those say who knew him best. Faults he had—who has not? let them sleep where rests his mortal frame, and let our minds dwell upon the noble traits of his character.

Why Mixed Schools are Preferable.

1st. The two sexes were created for the others good and advancement.

2nd. Young men need the refinement that is attained by the presence and association of young ladies.

3rd. Young men confined to the association of their own sex, and deprived of the presence and influence of the opposite, become rude and uncouth in their language and general deportment.

4th. Young ladies see the necessity, and do restrain themselves both in expression and action.

5th. It acts as a stimulus and incentive to action, and arouses every latent effort to excel in their studies, and to make higher and still higher literary attainments.

6th. It creates a spirit of rivalry that tends to encourage students to greater efforts to excel their classmates, which

consequently results in a more rapid advancement in the collegiate course.

7th. All experienced educators admit and voluntarily state that advantages are not more theoretical than practical truths, demonstrated by direct experiments. —South Carrollton Institute.

Married.

HOWARD—MORRIS. On last Tuesday night a large crowd assembled at the Methodist church to witness the celebration of the marriage rite of Dr. John P. Howard, of Greenville, and Miss Nettie T. Morris, of this place. At 8:30 p. m. the church doors were thrown open, which made a grand display of floral scenery. The altar was beautifully adorned with bouquets and flowers. Over the altar stood an arch of evergreens, bedecked with choice flowers and from the center of the arch was swung a festoon of every variety of flowers. The room was soon filled to its utmost capacity with anxious spectators, admiring the floral scenery, when the organ struck up a sweet melody which announced the arrival of the happy couple. A train of ushers led the way, followed by the fortunate two, marched gracefully to the altar, stepping to the notes of the music. The marriage was solemnized by Rev. Wm. Taylor. The bride party returned to the house of the bride's parents, and were followed by a goodly number of friends to congratulate them and partake of the many good things that had been provided for the occasion. The bridal presents were beautiful and too numerous to publish.

Dr. Howard is a perfect gentleman, and a skillful physician. Miss Nettie is an accomplished lady, and beloved by all who knew her, and is noted for her sweet singing. The whole affair was a pleasant one, and may every day of their lives be as pleasant as their union, and may naught but death sever them. —Elizabethtown News.

The marriage of Dr. J. P. Howard, the popular young druggist of Greenville, and Miss Nettie Morris, of Elizabethtown, is said, by those who were fortunate as to attend, to have been a very happy affair. The wedding occurred in the Methodist church at Elizabethtown, on last Tuesday night at 9 o'clock, after which a reception was tendered them at the residence of the bride's father. On the following morning Dr. Howard returned with his bride to Greenville, accompanied by Mr. C. E. Eades and wife, who were returning from their bridal tour. Mr. Dennis, of Elizabethtown, and Messrs. Chas. M. Howard and David Hesse, who were also present at the wedding.

Wednesday night a reception was given at the residence of Mr. J. C. Howard, the elegantly priced invitations to which read: "Mr. and Mrs. J. C. Howard's reception of Mr. and Mrs. C. E. Eades, Wednesday evening, Oct. 13, 1880, from 8:30 to 12 o'clock." A large number of friends were present and the enjoyment of the evening was unbounded. The supper was sumptuous and tastefully served. At a very late hour the company left, leaving their good wishes behind them for the happy couple in whose honor the entertainment was given. They have the Echo's blessings. —Muhlenberg Echo.

IMPORTANT QUESTIONS.

Reader, have you caught a cold? Are you unable to raise the phlegm? Have you an irritation in the throat? A sense of oppression on the lungs, with short breath? Do you have a fit of coughing on lying down? A sharp pain now and then in the region of the heart, shortness and back? If so, our Advice is take at once a dose of TUTT'S Expectorant; you will soon be able to raise the phlegm. In an hour repeat the Expectorant, place and from the fact, take one dose of TUTT'S Pills. You will soon fall into a pleasant sleep and wake up in the morning cough gone, lungs working freely, easy breathing, and the blood moving in a normal manner. To prevent a return of these symptoms use the Expectorant several days.

A Father's Will.

Died, near Rosine, February 9, 1880, Edwin, son of J. D. and M. C. Johnston, in the 3rd year of his age.

Edwin's gone to heaven above, My heart's delight, my dearest one, To dwell with angels 'mid their love—Dear Edwin's gone, my only son.

Edwin has quit his toys and play, And has gone home to rest from pain; I hope to meet him in that day, And press him to my breast again.

He was my little prattling boy, Yet he is called away on high, He left with me his little toy, And we will meet him by and by.

We miss our little Edwin, dear, He was so near to us, you know; Though he could stay no longer here, For nature has ordained it so.

THE FATHER.

As an elegant hair dressing stands Parker's Hair Balsam, deservedly popular for the beautiful hair it produces, and its cleansing and healing properties. Commencing at the roots, it promotes a luxuriant growth of young hair, and unfailingly restores gray or faded hair to the original youthful color, giving a soft, rich and lustrous appearance of great beauty. It is pleasantly cooling to the scalp, cleanses it from dandruff, cures itching and humors, and stops falling of the hair. It is perfectly harmless, exquisitely perfumed, never soils the skin or gums the hair, and pleases everybody by its many excellent and attractive qualities. A patron assures us he has used 12 different hair preparations and that Parker's Hair Balsam surpasses them all. Sold in large bottles, at only 50 cts. and \$1.00, by Z. Wayne Griffin & Bro., Hartford, Ky. 28-cow

GLASGOW JUNCTION, KY., July 3rd, 1880.

Messrs. Thomas & Kintley, Hartford, Ky.

DEAR SIRS:—This is to certify that I received from Mr. Eugene Cox about one-half bottle or vial of your pile salve and tried it upon myself and several others, and I think it has effected a permanent cure with myself, my mother and some other parties. After I had tried other pile remedies ineffectually—and I do not hesitate in saying, that I am satisfied it is the best pile remedy I ever used—and that I do not think anyone will be dissatisfied or disappointed after using your salve. Please let me know by return mail what it is worth per vial as I desire to get some, or you can send to Mr. C. M. Edmunds, the druggist at this place, and I can get it from him.

Yours, very respectfully,

G. W. BIRD.

Horse Training.

I have rented a stable in Hartford and will devote my time to training horses for saddle and harness purposes. I have a life-time experience in this business and feel justified in saying I understand it thoroughly. Terms reasonable. Bring on your horses and give me a trial. Respectfully,

Thin Seedling of Wheat.

Mr. Wm. J. Thomas, Sandy Spring, Md., gives the following in the American farmer as the result of twenty-five years' experience:

More than twenty years ago, when drills came into use here, one of the strongest arguments in their favor was that we could sow a bushel per acre (it was customary to sow two bushels per acre by hand) by using the drill. I could see no good reason why a less quantity would sow broadcast; consequently I sowed a field by way of experiment, using one bushel and four quarts per acre, at the same time doubling the quantity sowed on one land. The yield was twenty-six bushels per acre on the drill, and only one bushel on one land sowed, but the difference was very perceptible. That sowed at the rate of two bushels per acre was much thicker than the plot sowed with one and one-half bushels, and the heads were not much more than half as long. So satisfied was I with this trial that I have continued to sow one and one-half bushels per acre for the last twenty years, and have raised, I think, quite as good crops as most of my neighbors. In 1876 Brother S. P. Thomas had just purchased a drill, and from some cause some of the gears gave way, and in renewing it one of the gears was misplaced, causing the drill to sow three pecks per acre instead of five, as intended, and although he reported the fact to me when I got the drill, I had so much confidence in the result of this sowing I proceeded to sow a two-acre field. The field had been in corn that year, and the next spring (1877) no one would have supposed there had been wheat sown there, it made so little show. At harvest time, I sowed pretty thick, and the falling part was in the long and well-filled heads, making thirty-eight bushels on the field per acre.

There is another question in farming in which I differ from most farmers. I sow four quarts of clover seed per acre, and the same of timothy seed, and advertise putting on the additional amount in fertilizer, and I am satisfied that I get on an average as good a set of grass and about as good crops of hay as my neighbors.

Mr. Gerard Emmart, Asbestos Ridge, Baltimore county, writes on the same subject as follows:

In accordance with promise, I note down my experience in sowing wheat for the past four years. Hay has been my principal crop. When we fail to get over a ton to the acre, or the timothy is superseded by pink, June or blue grass, we put in some clover with oats, then seed to wheat and best timothy, using manure or fertilizer. Top-dress grass with manure from harvest till the grass commences to grow in the spring.

In 1876, not having out stubble, and having twenty acres of meadow that had pretty well run to June and blue grass, I concluded I would plow and sow in wheat and seed to timothy. Commenced in August and finished in September. Harrowed until it got in pretty good condition. Drilled in Fultz wheat 90, 100, and 110 bushels per acre, tending to sow 11 bushels per acre, but sowed 330 bushels on 26 acres, and one ton more Phillips' phosphate, one ton Horns' phosphate, and two sacks of superphosphate. The yield of the 26 acres was 110 bushels per acre, or 2860 bushels. The yield of the 26 acres was 110 bushels per acre, or 2860 bushels. The yield of the 26 acres was 110 bushels per acre, or 2860 bushels.
